ORGANIZING COMMITTEE

Dear Colleague, Dear Friend,

It is my pleasure and honour to invite you to **Nice-Preservation Rhinoplasty-2026**.

For this **March 2026** VIIth Edition, the meeting will take place from **Friday 20th to Sunday 22nd** at the **Hotel le Méridien**, 1 Promenade des Anglais, Nice, France.

The aim of this 3-day meeting is to discuss the most recent advances introduced by the rhinoplasty masters. Moreover, exclusive in this meeting :

- **19 interactive 30 min Masterclasses including surgical edited videos by key opinion leaders** to provide an in-depth understanding of the techniques performed and their indications.
- **Advanced management of nostrils' shapes and size, and alar base modifications** that are always a tricky part of the surgery.
- Thick skin management through **Rhinodesis** and transcutaneous sutures
- **«Rhinomyoplasty»** will be introduced, emphasizing the place of the nasal muscles management in rhinoplasty.
- **Nasal tip work** regarding **lower lateral cartilage** preservation, manipulation and/or grafting, as well as nasal **SMAS manipulations**
- Experts panels about **segmental nasal roof management vs foundation techniques**
- **Revision surgeries**: How and when suggest dorsum preservation procedures
- **Complications after dorsum preservation**: how to avoid/how to manage.

Moreover, since 2024, on **March Thursday 19th**, a special «**Masterclass for Beginners**» by **Yves Saban**, is preceding the main meeting. This Masterclass has been introduced, through nasal applied anatomy and functional procedures, **to help the beginners in better and more effective understanding of PR concepts, classification, and procedures**. So doing, they will take better advantage of the main expert meeting that will be following this more «basic» masterclass.

Last but not the least, a nice exhibition providing a wide range of devices, the friendly atmosphere, and the location along the Promenade des Anglais on the Mediterranean seashore are part of the trade mark of **Nice Preservation Rhinoplasty**, very much appreciated by the participants coming from over 52 countries since 2019.

On behalf of the organizing committee, I will be delighted to welcome you in Nice-PR-2026.

With my best personal regards,

Dr Yves Saban
