Dear Colleagues, Dear Friends,

It is my pleasure and honour to invite you to **Nice-Preservation Rhinoplasty-2027**

For the **March 2027** Session, the congress will take place from **Friday 12th to Sunday 14th** at **Le Palais de la Méditerranée**, 13 Promenade des Anglais, Nice, France.

The aim of this 3-day meeting is to discuss the most recent advances in rhinoplasty introduced by the global rhinoplasty masters.

- **“How I do it,” 30 min Interactive Masterclasses** including edited surgical videos
- **The News: Liquid rhinoplasty vs Surgical rhinoplasty**, to discuss indications, advantages and risks and how to manage complications
- **Advanced management of nostrils’ shape and size, and alar base modifications**
- **Soft tissues management**: the value of transcutaneous sutures in thick skin
- **“Rhinomyoplasty”** emphasizing the place of the nasal muscles in rhinoplasty.
- **Nasal tip work** regarding **lower lateral cartilage** preservation, manipulation and/ or grafting
- Experts panels about **segmental nasal roof management vs foundation techniques**
- **Revision surgeries**: How and when suggest dorsum preservation procedures
- **Complications after dorsum preservation**: how to avoid/how to manage

Moreover, since 2024, a **“Masterclass for Beginners”** by **Yves Saban**, is preceding the main congress. It will be held on **March Thursday 11th 2027** at Le Palais de la Méditerranée.

This Masterclass is introduced through nasal applied anatomy and functional procedures **to help the beginners in better and more effective understanding of PR concepts, classification, and surgical procedures**. So doing, they will take better advantage of the main expert meeting that will be following this more “basic” masterclass.

Last but not least, a nice exhibition providing a wide range of devices, the friendly atmosphere, and the location along the Promenade des Anglais on the Mediterranean seashore are part of the trade mark of **Nice Preservation Rhinoplasty**, very much appreciated by the participants coming from over 53 countries since 2019.

The organizing committee and I will be delighted to welcome at **Nice-PR2027**

With my best personal regards,

Dr Yves Saban
